

TIGER ELECTRIC WINCHES SERIES F

Our Tiger range of winches are all of planetary design, rugged in construction and engineered to exacting standards. The Tiger is light weight and incredibly strong. Built with a precision two stage planetary gear box, they feature quality roller bearings throughout. The Tiger winch is supplied with a high starting torque motor, designed and manufactured specifically for hauling and hoisting applications.

For added safety and piece of mind, they are constructed with a fail safe electro magnetic disc brake which provides safe, easy load control. Tiger winches are extremely compact, user friendly and require minimal servicing.

This winch features a precision machined, high efficiency gear train for long service and reliability.

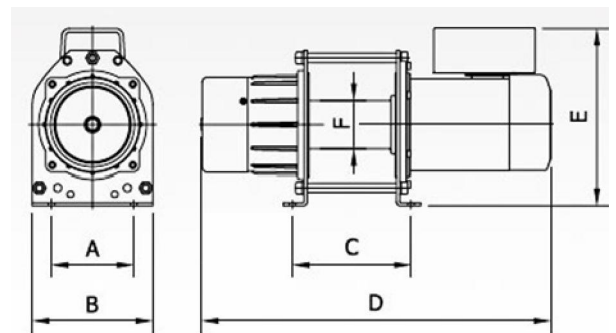

APPLICATIONS

- Boat ramps
- Small workshops
- Crane and lifting
- Home handyman
- Positioning caravans or large trailers in confined areas
- Lifting sullage pumps
- Agricultural environments, water pump installation and removal

All units are supplied with rope, safety hook, pendant control and are pre-wired. We are confident these dynamic units will exceed your highest expectations and provide years of service. Alternative models are available to suit your requirements.

STANDARD FEATURES

- Pre-wired for 240V Single Phase with a standard 3 pin plug
- Supplied with wire rope with safety hook
- Forward and reverse pendant control with 3m lead
- Optional radio remote control
- Optional 24 volt hand control
